- **Lustration**: detailed verification and re-assessment of the judicial function holders
- Establish new regulatory bodies capable of applying **lustration** procedures
- **Lustration** should be conducted by experts and scholars who have not been performing judicial duties in recent years

# Recommendations – WB legislation

I SUPPORT  
WHISTLE  
BLOWERS

Legal protection for whistleblowers needs to be ensured at all levels of government.

Corruption should not be limited only to the criminal offences against official duties and responsibilities

# Recommendations – WB legislation

- Activities aimed at promoting the laws on whistleblower protection
- Amend the law in Republika Srpska as the deadlines for whistleblowers are too short and they should be extended

# End repression against Justice for David members and supporters
