It stressed that India continued with its endeavours towards observance of human rights. When drafting its national report, India followed a broad-based consultative approach involving various stakeholders.
6. The delegation highlighted India's utmost priority to poverty eradication and achieving inclusive sustainable development. In this regard, major initiatives had been undertaken, including Smart Cities, Make in India, Celebrate the Girl Child and Enable her Education, Bank Accounts for All, and Start up India, which mirrored the targets of the seventeen Sustainable Development Goals (SDGs) for achieving the 2030 Agenda.
7. An important plank of India's development agenda, as well as of its push towards good governance and the creation of a knowledge society, had reportedly been the "Digital India" programme, which aimed at transforming India into a digitally empowered society.
8. The coverage of the Aadhaar Unique Identification Number was widened to prevent leakages and to ensure targeted delivery of scheme benefits. To further institutionalize the project, the Aadhaar Targeted Delivery of Financial and other Subsidies, Benefits and

Services Act, 2016 was enacted. Over a billion Aadhaar cards had reportedly been issued so far.

9. India had taken various steps to eliminate all forms of malnutrition, including child malnutrition, notably through the adoption of the National Food Security Act, 2013, and the expansion of the coverage of the Integrated Child Development Scheme for better nutrition, health, and overall development of children that are less than 6 years old.
