WE BELIEVE IN SECOND CHANCES (“**Second Chances**”) is a non-governmental organization established in 2010 with the primary focus of advocating against the death penalty in Singapore. Apart from public advocacy, an important aspect of our work includes working closely with the family members of death row inmates. Through our articles, case updates and research work, we are committed to building the organization as a centre for information on issues relating to the death penalty in Singapore. Second Chances is also an active member of the Anti-Death Penalty Asia Network (ADPAN).
