1. The Government of Finland welcomes the recommendations made during its universal periodic review on 3 May 2017 and is pleased to provide the following responses, to be included in the outcome report.

**100.1 Noted**

2. Reservation in Articles 10(2)(b) and 10(3) of the Covenant: although juvenile offenders are, as a rule, segregated from adults in Finland, it is not deemed appropriate to adopt an absolute prohibition not allowing for more flexible arrangements. The number of prisoners under 18 years of age is extremely low in Finland.

3. Reservation in Article 14(7) permits Finland to continue national legal practice whereby a criminal conviction may be reversed to the detriment of the accused person on conditions laid down by law. This is applied very rarely due to efficient criminal investigation system. However, such possibility may be necessary in some cases, especially for guaranteeing legal protection for victims of offences. Therefore Finland still deems the reservation necessary, although the application thereof will continue to be exceptional.

4. Reservation in Article 20(1) prohibiting war propaganda is based on the grounds that this obligation conflicts with the right to freedom of expression defined in Article 19.

5. Necessity of these reservations and the possibility of withdrawing them are reviewed periodically.
