**RE: Human Right Alert-NGO submission - Israel - 29<sup>th</sup> session**

Dear Sir/Madam:

Today, I tried to upload through the UPR portal the Submission and Annex records for the UPR, 29<sup>th</sup> session, Israel, titled: **Incompetence and/or corruption of the courts and the legal profession, and discrimination by law enforcement in Israel.**

However, I repeatedly received an error message:

Therefore, in order to meet the deadline, I file, attached, the HRA-NGO records:

a) Submission, and b) Annex.

The files are provided in both Word (per instructions) and PDF format (total of 4 files).

My experience is that Word format submissions to academic periodicals has been fraught with problems, related to Word versions incomparability, particularly relative to placement of figures. The attached files include numerous figures, particularly judicial and legal records, and therefore, the file format is of particular significance.

Please confirm receipt by return email, and let me know of any format problems that may exist, so that I may promptly correct them.

Truly,

A handwritten signature in black ink, appearing to read "J. Zernik".
