

## **(a) Background**

1. Nepal is a state party of seven core International Human Rights Instruments<sup>1</sup> and Optional Protocols<sup>2</sup>. This report has been prepared by the National Human Rights Commission (NHRC), National Women Commission (NWC) and National Dalit Commission (NDC) in continuation to the Second Universal Periodic Review of Nepal submitted in 2015. The NHRC<sup>3</sup>, NWC and NDC are Constitutional bodies. Established in accordance with the Paris Principles, the NHRC has been consistently accredited with 'A' status by the SCA GANHRI. *The NWC<sup>4</sup> is mandated for protection and promotion of women rights, monitoring the situation of women and integrating gender equality norms into mainstream development endeavours. The NDC<sup>5</sup> is responsible for protection and promotion of Dalit rights, and facilitates the government for ending caste-based discrimination and for empowerment of the Dalit community.*

## **(b) Methodology**

2. The NHRC led report writing committee was formed with a mandate to hold consultations with stakeholders share and update information and coordinate with entities including NWC and NDC. The NHRC held nationwide consultations<sup>6</sup> with a total of 2,462 persons.<sup>7</sup> Participants came from various discipline including government bodies, security agencies, federal and provincial parliament, political parties, civil society organizations (CSOs), persons with disability (PWD), vulnerable and marginalized groups, teachers, students, children, farmers, media, conflict victims, human rights defenders, labor and migration organizations, international organizations and UN agencies. Separate consultation was held with Government of Nepal (GoN) including various ministries. The NHRC prepared 15 thematic position papers based on plan of action made by GoN on UPR implementation.

## **(c) Constitution and Institutional Structure (121.10, 122.1)**

3. The Constitution incorporates 31 fundamental rights<sup>8</sup>. For the implementation of these rights, 17 laws have been enacted. However majority of these laws lack regulations. With federal system of governance, Nepal now has three tiers of government- Federal, seven Provincial and 753 local Level with respective autonomous governments. All tiers of government are obliged to address and fulfill the norms and standards of human rights. *GoN should ensure wider consultation with stakeholders before adopting laws pursuant to the Constitution and*

<sup>6</sup> NHRC conducted 7 provincial workshops, 23 district wise consultation meetings, 9 thematic meetings and 1 national workshop with stakeholders. Separate 7 provincial child centric workshops was also conducted in collaboration with Children as Zone of Peace (CZOP) and other coalitions of CSOs working on issues of child rights

<sup>7</sup> 2,462 participants participated at consultations from 68 districts out of 77 districts. Participants included 1,676 male, 751 female, 31 LGBTIQ, 470 Indigenous people, 243 Dalits, 511 Madhesi/ Muslims/ Tharu and 1219 others.

4. Local, provincial and federal legislative elections were conducted in 2017. NHRC monitored the elections from human rights perspective and provided recommendations<sup>9</sup>. GoN should *ensure voting rights of Nepalese in abroad.*

**(d) NHRC, NWC, NDC (121.11, 121.12, 121.13, 121.15, 121.16, 122.16, 122.17)**

5. Goal 16 of SDG focuses on the existence of independent national human rights institutions in compliance with the Paris Principles. Accordingly, the NHRC proposed amendment<sup>10</sup> bill to bring it in line with the Paris Principles and federal structure. However, NHRC Amendment Bill, 2019 tabled in the Parliament contradicts the verdict of Supreme Court, Paris Principles and amendments proposed by NHRC. Enactment of this Bill will undermine the constitutional provisions as well as the independence and autonomy of NHRC. Furthermore, NHRC will have to rely on the Office of the Attorney General (AG) for action against perpetrators of human rights violations as AG would have discretionary power in filing cases in court. The Bill does not provide easy and conducive grounds to accept additional financial resources. The bill also removes a provision of regional and sub-regional offices. Removal of this provision indicates curtailment of accessibility to broader population.
6. Nepal made voluntary pledges during the Human Rights Council election to strengthen the role of NHRC. **Foreign Minister addressing the Council on March 2019<sup>11</sup> and 2020<sup>12</sup>, committed to retaining and strengthening independence and autonomy of the NHRC.** Six Special **Rapportuers**<sup>13</sup> of the UN have drawn attention of the GoN via 'communication' stating that NHRC Amendment Bill potentially severely undermines the NHRC's authority, effectiveness, independence, limiting the Nepali people's ability to access justice. The NHRC proposed human rights service draft bill and new organogram to the OPMCM in 2019 which is still not approved. As a result, NHRC employees do not enjoy terms and services in par with other civil servants. Apart from NHRC, all other commissions remain docile because of delay in appointment of chairpersons and members, lack of resources and functional ambiguity. *GoN should revise the NHRC Amendment Bill in consultation with NHRC and its previous recommendations on the Act and endorse the proposed organogram within one year, ensuring independence and autonomy of NHRC by providing functional and financial autonomy. GoN should provide adequate resources to all other constitutional bodies including NWC and NDC. GON should ensure appointment of chairpersons and members of the constitutional bodies within three months.*

**(e) Implementation of NHRC recommendations (121.2, 121.11, 121.12, 121.13, 121.15, 122.15, 122.16, 122.17, 122.18)**

7. NHRC has since its establishment made 1,059 recommendations to the Government based on complaints of human rights violation to provide relief and compensation to the victims and for punishment against the perpetrators. Similarly, NHRC made 19 policy and 58 case-based recommendations within the reporting period, including for ratification of international human rights instruments. However, of the total recommendations only 10% fully implemented, 40% partially implemented while 50% is yet to be implemented. Of those implemented, significant number are related to compensation to the victims. However, prosecution of and punishment against the perpetrators is less than 5 %. The NHRC Act 2012 requires the government to inform NHRC about implementation of its recommendations within three months. But the NHRC has received very few communication so far illustrating reasons or limitations of GoN. The non-implementation of the NHRC's recommendations obstructs the development of an environment conducive to enjoyment of human rights while increasing impunity. *GON should fully implement recommendations of NHRC within a year, including ratification of international human rights instruments*<sup>14</sup>.

**(f) Transitional Justice (121.28, 122.5, 122.61, 122.63, 122.64, 122.65)**

8. Most of the provisions of Comprehensive Peace Accord (CPA) have been fulfilled. Truth and Reconciliation Commission (TRC) and Commission on Investigation of Enforced Disappeared Persons (CIEDP) were established<sup>15</sup> on 10 February 2015 to investigate human rights violations and abuses during the 10-year-old armed conflict and to address transitional justice. The tenure for both the Commissions was four years, which was extended twice but still failed to accomplish the task. The position of Commissioners remained vacant for nine months. The new commissioners were appointed on 19 February 2020. There are 65,000<sup>16</sup> and 3,000<sup>17</sup> complaints registered under the jurisdiction of TRC and CIEDP respectively.
9. Along with, consultation with various stakeholders<sup>18</sup> the NHRC has drawn attention and made its position public<sup>19</sup> to establish credible and trustworthy commissions and to amend the TRC Act ensuring seeking truth, protection of witness, reconciliation with consent of victims, reparation, and prohibition of blanket amnesty for serious crimes and human rights violations and for justice to the victims. It also insisted<sup>20</sup> for appointment of Commissioners. In April 2019, five UN special rapporteurs drew attention of the Foreign Minister seeking transparency and proper consultation before selecting Commissioners in TRC and CIEDP, and urgently initiate a process to amend the Act based on appropriate consultation with victims, and their families, civil society and NHRC.

10. Verdict of Supreme Court on the writ number 070-WS-0050<sup>21</sup> has voided amnesty in rape, killings and other serious human rights violations, while allowing reconciliation only with victims' consent. *Both Commissions should ensure credible victim-friendly works. GON should amend the Act in pursuant to Supreme Court verdict, NHRC's recommendations and human rights standard.*

## **(g) Civil and Political Rights**

### **Right to Life (121.26, 121.27)**

11. Article 16 of Constitution of Nepal states that everyone has the right to live with dignity. However the government is not able to protect the lives of the people. Altogether 52 complaints of alleged killings have been registered in NHRC within the reported period.<sup>22</sup> Kumar Paudel was shot dead on June 20, 2019 by Nepal Police and NHRC found three police personnel guilty in the incident and recommended to government to prosecute them after summoning<sup>23</sup>. NHRC has recommended to the Government and concerned authorities for taking precaution during the investigation.<sup>24</sup> *GON should ensure fair investigation of all alleged killings, implement recommendation of NHRC regarding right to life and follow the principles on use of force and firearms.*

### **Torture (121.3, 121.4, 121.26, 122.25, 123.1, 123.2)**

12. Article 22 of the Constitution guarantees the Right against Torture. Torture has been criminalized by the Criminal Code, 2018, which is positive. However, the statutory limitation of six months is not in line with CAT. GoN has also adopted a Zero-Tolerance Policy but 100 complaints on Torture have been registered in NHRC within the reporting period. UN Human Rights Committee had urged Nepal to remove obstacles that hinder victims of torture and forced labor in filing complaints.<sup>25</sup> Regarding the right of victims, the Crime Victim Protection Act, 2018 and related Guidelines introduced by AG are good aspects. *GON should establish independent and credible mechanism for investigation of torture within a year and establish the statutory limitation in line with CAT.*

This case highlights the Section 26 (5) of TRC Act, 2014 which states that there will be no amnesty in rape and other serious cases of human rights violation and Section 26 (5) of TRC Act, 2014 has provision of consent and without consent to reconcile is voided the word without consent of victim

<sup>22</sup> Alleged killing includes Custodial death, intervention by Police on clashes between political parties and protests, Excessive use of force, encounter etc.

<sup>25</sup> <https://www.ohchr.org/EN/NewsEvents/Pages/DisplayNews.aspx?NewsID=24921&LangID=E>, On 27<sup>th</sup> August, 2019, the UN Human Rights Committee had called Nepal to remove obstacles that hinder victims of torture and forced labor in filing complaints. In response to an individual complaint filed by a victim belonging to *Tharu* community, the Committee had asked the government to make the provision of criminalizing torture at par with international standards suggesting the statute of limitation be proportionate with the gravity and nature of the crime, and also the penalty to be adequate. The committee has also requested Nepal to report back within 180 days detailing the measures it had taken to remedy the situation.

## Right to Justice

13. Article 20 of the Constitution guarantees rights relating to justice. Access to Justice Commission<sup>26</sup> is concerned with ensuring access to justice for people from marginalized communities and areas without judicial institutions. Court has made arrangements for fast-track procedure in sensitive cases like rape, trafficking etc. The NHRC has monitored 72 prisons and detention centers where the inmates shared grievances of justice being costly and delayed. There is still problem in filing FIR, lengthy court procedures while justice delivery is influenced by powerful persons in some cases. Despite court orders of release, cases of re-arrest have been registered in NHRC. *GoN should allocate adequate resources for scientific investigation and adopt measures for fair and effective administration of justice.*

## Freedom of Press, Opinion and Expression (122.72, 122.73, 122.74)

14. Article 17 and 19 of the Constitution guarantee every citizen freedom of expression and right to communication respectively. However, few provisions of Media Council Bill question the autonomy of Council and limits press freedom, whereas Bill on Information and Technology intends to restrict freedom of expression. NHRC has raised concern over Media Council Bill over its potentiality of curtailing press freedom and suggests penalty by competent authority.<sup>27</sup> *GoN should revise Media Council Bill and Information Technology Bill to bring them in line with norms of human rights, ensuring freedom of press and expression and create mechanism for safety of journalists.*

## Impunity (122.44, 122.52, 122.53, 122.54)

15. Government has repeatedly committed to end impunity and strengthen rule of law. However, the implementation of decisions of Supreme Court, recommendations of NHRC, NWC and NDC is not satisfactory. Few instances, GoN has not implemented NHRC recommendations including the case of Kumar Paudel<sup>28</sup> and Nirmala Pant<sup>29</sup>. Victims of Maleth killing

NHRC also recommended GoN to provide reparation to victims of the incident, recommended political parties not to use the fire and stick demonstration in rallies, and recommended security forces to follow the due process of use of force and firearms. incident<sup>30</sup> Ganga Maya Adhikari<sup>31</sup> <sup>32</sup>, Maina Sunuwar's family<sup>33</sup>, Godar killing incident<sup>34</sup> , Dayaram Pariyar<sup>35</sup> are still struggling for justice. *GoN should ensure implementation of verdict of SC and recommendation of NHRC; ensure effective investigation of criminal offences, justice to victims and rule of law.*

### **Prisoners/Detainees ((121.23, 122.66)**

16. Article 20 and 22 of Constitution guarantees the rights relating to justice. Various laws<sup>36</sup> and verdict of Supreme Court are concerned with the rights of prisoners/ detainees. However, 74 Prisons built to accommodate 15,466 inmates are currently hosting 21,577 inmates.<sup>37</sup> GoN has increased the daily livelihood allowance of prisoners to Rs 60, which still is nominal. There is not special arrangement for PWDs, gender minorities and senior citizens, no separate room for prisoners and detainees. Situation of basic amenities, sanitation, room space, food quality is not satisfactory. Majority of the prisons lack separate child and maternity care centers. GoN has started the concept of open prison. The jails are devoid of formal education and literacy programs.<sup>38</sup> *GoN should establish open prison and build enough physical infrastructures to address the problem of over-crowding and basic needs including sanitation within four years.*

### **(h) Economic, Social and Cultural Rights**

#### **Food (122.86, 122.88)**

17. Article 36 of the Constitution safeguards the right to food. Right to Food and Food Sovereignty Act, 2075 has been enacted but the implementation mechanism including rules has not been introduced. SDG 2 aims at ending hunger, achieving food security to improve

However, 36% of children under five are stunted in Nepal and 10% of children under five are wasted.<sup>41</sup> About 17% women of reproductive age have chronic energy deficiency.<sup>42</sup> Vitamin A deficiency is the cause of deaths of approximately 6,900 children in Nepal each year.<sup>43</sup> *GoN should introduce Regulations for implementation of Right to Food and Food Sovereignty Act and Plan of Action within one year.*

### **Health (122.90, 122.91, 122.92, 122.95, 122.93, 122.94, 122.95, 122.106)**

18. Article 35 of the Constitution recognizes right relating to health. Although the Parliament has endorsed the Public Health Service Act 2018, Rules related to the act are yet to be formulated. Goal 3 of SDG ensures healthy lives and promotion of well-being for all at all ages. 78% of children are fully immunized and 29 districts have been declared fully vaccinated. GoN has issued various plans<sup>44</sup>. The Right to Safe Motherhood and Reproductive Health Act 2018 lacks Rules. GoN has arranged for free surgery and health care for women suffering from uterine prolapse. There is improvement in the rate of infant mortality, under-5 mortality and neonatal mortality.<sup>45</sup>
19. Majority of households (95%) have access to an improved source of drinking water. More than six in ten households (62%) in Nepal use improved sanitation. Nearly all urban households (94%) have electricity, compared to 85% of rural households<sup>46</sup>. *GoN should ensure and enhance effective implementation of existing health sector policies and plans.*

### **Education (122.20, 122.48, 122.49, 122.50, 122.96, 122.97, 122.98, 122.99, 122.100, 122.101, 122.102, 122.103, 122.105, 122.106, 122.107, 122.108, 122.110)**

20. Article 31 of the Constitution guarantees right to education. GoN has enacted Act Relating to Compulsory and Free Education, 2018 and Education Ac 2018. However, there are no Rules for implementation of Compulsory and Free Education Act. Goal 4 of SDG ensures inclusive and equitable quality education and promotes lifelong learning opportunities for all. 21. Enrollment rates of students in Grade I to V, Grade V to VII and Grade IX to XII were 96.9, 92.7 and 46.4 per cent respectively. Net Attendance Rate (NAR) for both primary school and secondary school remains lower in rural areas, showing disparity on the basis of geography. Nepal has 40.9% of inequality in education<sup>50</sup> indicating huge disparity between the no. of literate women and men. Even in the capital, 77% of schools are not accessible to Person with disabilities (PWD).<sup>51</sup> *GoN should implement the Rules for implementation of Act Relating to Compulsory and Free Education within one year and enhance access to education of PWD.*

## **Housing (122.89)**

22. Article 37 of the Constitution guarantees right to housing. Right to Housing Act, 2018 is concerned with providing homeless citizens with appropriate and safe housing facility. Goal 11 of SDG ensures access for all to adequate, safe and affordable housing. Citizens Housing Program has been launched by GoN.<sup>52</sup> *GoN should enhance Citizens Housing Program for all deprived class.*

## **Labor and Employment (121.6, 122.11, 122.48, 122.49, 122.50, 122.51, 122.78, 122.80, 122.81, 121.82, 122.112)**

23. Article 33 and 34 of the Constitution guarantees Right to Employment. Goal 8 of SDG ensures full and productive employment and decent work for all. GoN has enacted various laws and programs<sup>53</sup> and ratified 11 ILO Conventions.<sup>54</sup> The Labor Act, 2017 states about equal pay for equal work.<sup>55</sup> Male workers earn 30% more compared to female workers, indicating a huge pay gap<sup>56</sup>. Furthermore, population of working age male and female stand at 9.2 million 11.53 million respectively but for every 100 employed males, there are only 59 employed females.
24. GoN claims of periodic review and increment of minimum wage which is not implemented in private sector. GoN has not developed action plan for implementation of ILO 111. GoN claims that rehabilitation programs are being conducted for *Kamaiyas* and *Haliyas*<sup>57</sup> but program has not been initiated for *Haruas* and *Charuas*. *GoN should adopt strong inspection*
